Contents of Volume 130

Research Articles

J.T. Pennington and M.G. Hadfield (U.S.A.)
A simple nontoxic method for the decalcification of living invertebrate larvae 1

G. Anderson and W.E. Dale (U.S.A.)
Probopyrus pandalicola (Packard) (Isopoda; Epicaridea): swimming responses of cryptoniscus larvae in water conditioned by hosts *Palaemonetes pugio* (Holthuis) (Decapoda; Palaemonidae) 9

M.J. Ellis and B.C. Coull (U.S.A.)
Fish predation on meiobenthos: field experiments with juvenile spot *Leiostomus xanthurus* Lacépède 19

S.G. Jonasdottir (U.S.A.)
Effects of food concentration on egg-production rates of two species of *Pseudocalanus*: laboratory observations 33

F. Bärlocher, S.Y. Newell and T.L. Arsuffi (U.S.A.)
Digestion of *Spartina alterniflora* Loisel material with and without fungal constituents by the periwinkle *Littorina irrorata* Say (Mollusca: Gastropoda) 45

A.J. Paul, J.M. Paul and K.O. Coyle (U.S.A.)
Energy sources for first-feeding zoeae of king crab *Paralithodes camschatica* (Tilesius) (Decapoda, Lithodidae) 55

D. Craig, R.J. Ireland and F. Bärlocher (Canada)
Seasonal variation in the organic composition of seafoam 71

A.J. Fraser, J.R. Sargent and J.C. Gamble (U.K.)
Lipid class and fatty acid composition of *Calanus finmarchicus* (Gunnerus), *Pseudocalanus* sp. and *Temora longicornis* Muller from a nutrient-enriched seawater enclosure 81

R.C. Zimmerman, R.D. Smith and R.S. Alberte (U.S.A.)
Thermal acclimation and whole-plant carbon balance in *Zostera marina* L. (eelgrass) 93

D.R. Levitan and S.J. Genovese (U.S.A.)
Substratum-dependent predator–prey dynamics: patch reefs as refuges from gastropod predation 111

A.W. Stoner (Bahama, U.S.A.)
Density-dependent growth and grazing effects of juvenile queen conch *Strombus gigas* L. in a tropical seagrass meadow 119

A. Vassiliou, L., Ignatiades and M. Karydis (Greece)
Clustering of transect phytoplankton collections with a quick randomization algorithm 135

V. Chow (U.S.A.)
Intraspecific competition in a fluctuating population of *Littorina plena* Gould (Gastropoda: Prosobranchia) 147

M.C. Austen (U.K.)
Factors affecting estuarine meiobenthic assemblage structure: a multifactorial microcosm experiment 167

L. Vail (Australia)
Arm growth and regeneration in *Oligometra serripinna* (Carpenter) (Echinodermata: Crinoidea) at Lizard Island, Great Barrier Reef 189

R.L. Miller (U.S.A.)
Evidence for the presence of sexual pheromones in free-spawning starfish 205

J.A. Reidenauer (U.S.A.)
Sand-dollar *Mellita quinquiesperforata* (Leske) burrow trails: sites of harpacticoid disturbance and nematode attraction 223

C. Harrold and S. Lisin (U.S.A.)
Radio-tracking rafts of giant kelp; local production and regional transport 237

L.-O. Loo and R. Rosenberg (Sweden)

CONTENTS OF VOLUME 130

Bivalve suspension-feeding dynamics and benthic–pelagic coupling in an eutrophicated marine bay 253
S. Matsakis and P. Nival (France)
Elemental composition and food intake of *Phialidium* hydromedusae in the laboratory 277
S. S. Bell, G. R. F. Hicks and K. Walters (New Zealand, U.S.A.)
Experimental investigations of benthic reentry by migrating meiobenthic copepods 291

Author Index of Volume 130 305
